Web Development and Data Visualization – Assessment

Using data set provided, create an interactive, dynamic application with the following analysis as individual tabs in the application

Summarize the data
1. Understanding what content is available in different countries
2. Identifying similar content by matching text-based features
3. Network analysis of Selected Actor / Directors and find interesting insights
4. Is Netflix has increasingly focusing on TV rather than movies in recent years.

Pick a minimum of 2 analysis and complete it.
You may choose all the analysis also to be delivered as per the timeline.

Share the final deliverable as a HTML package
